User Story to Tests

Generate comprehensive test cases from your user stories

Connect Jira

This UI-only flow stores your Jira connection details locally and populates user stories for the form.

Base URL

http://[REDACTED]:8080/boards

Email ID

karthikeyan@thinknsolutions.com

Jira API Key

Reconnect Jira

Connected to https://thinknsolutions.atlassian.net/jira/software/projects/GS/boards/78

Connected to https://thinknsolutions.atlassian.net/jira/software/projects/GS/boards/78. 3 stories are ready to use.

JIRA-101

User can sign in with email and password

The user should be able to sign in securely using a registered email and password.

JIRA-102

User can view and filter the project dashboard

The user should be able to open the dashboard and filter items by status and owner.

JIRA-103

User Story, Description Acceptance Criteria-

Story Title *

Ahc Reports Reports Ahc

Description

As a user, I want to ahc reports reports ahc so that the related functionality works as expected.

Acceptance Criteria *

Given reports exist in the system, when a user views or generates a report, then the report should display accurate and up-to-date information.

Additional Info

Any additional information (optional)...

Generate

Frontend-Out-put Testcases-

Generated Test Cases

30 test case(s) generated • Model: llama-3.3-70b-versatile • Input tokens: 404 • Output tokens: 2434 • Cost: \$0.002161 (est.)

Test Case ID	Title	Category	Expected Result
▶ TC-001	View Existing Report	Positive	The report displays accurate and up-to-date information
▶ TC-002	Generate New Report	Positive	The newly generated report displays accurate and up-to-date information
▶ TC-003	Report Data Validation	Positive	The report data matches the actual data in the system
▶ TC-004	Non-Existent Report	Negative	An error message is displayed indicating the report does not exist
▶ TC-005	Invalid Report Parameters	Negative	An error message is displayed indicating the invalid parameters
▶ TC-006	Report Generation Timeout	Edge	A timeout error message is displayed or the report generation is cancelled
▶ TC-007	Large Report Data	Edge	The report is generated and displayed correctly without any performance issues
▶ TC-008	Unauthorized Access	Authorization	Access to the reports section is denied
